Hi Jenny,

Just to clarify – for most of those, we added in the note about copyrighting (and can remove if necessary). Several of these are available for a fee (row 61, 63, and 64).

For row 62, we think there is an error in the footnote about the publisher because the version we found is a USGS open file report.

For row 66, we could not even locate a copy, but did find the similar volume 3 is available for a fee, so we assume volume 2 would be as well.

And for Row 19, I just couldn't match the content up to this California statute (but the only version of the statute that I tracked down was full of links to subsections, so not readily searchable).

Thanks, Amy

Hi Jayne, thanks for highlighting the references I need to look into. I reviewed them and it looks like they're copyrighted, so can't be PDFed. Can we note that in the admin documents? I don't think we want to take out references just because we can't PDF them. Other ideas?

Hi Jenny & Alan,

Tetra Tech is trying to locate several references. I highlighted the ones pertaining to pesticides in blue and the one for you Alan in green. Will call to explain....

Jayne
